REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowance of claims 1 and 15 is the inclusion of the limitations of

" An orifice member positioned in said injector body and defining a flow passage with a minimum flow area along its length, which is restricted flow area, and being movable between a first position and a second position; said needle valve member displacing fluid through said flow passage when moving toward said open position; and said needle control passage having a minimum flow area along its length, which is an unrestricted flow area relative to said restricted flow area, and fluid being displaced through said unrestricted flow area toward said closing hydraulic surface over at least a portion of movement of said needle valve member between said open position and said closed position" in claim 1 and

"Opening a nozzle outlet slowly at least in part by displacing fluid, which is caused by movement of a needle valve member, through a restricted flow passage defined by an orifice member that has a minimum flow area along its length, which is a restricted flow area; and closing said nozzle outlet quickly at least in part by displacing fluid toward a closing hydraulic surface of said needle valve member through an unrestricted flow passage with a minimum flow area along its length, which is an unrestricted flow area relative to said restricted flow area, and said unrestricted flow passage includes the restricted flow passage and at least one other flow passage defined at least in part by

said office member " in claim 15 that the prior art of record neither taught nor suggested.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
